Dear Veterinary Students, Interns & Residents

Gatto McFerson has been providing veterinarians with accounting and consulting services for over twenty years. We also teach and lecture at many veterinary schools of medicine.

We would like to offer each of you the chance to have your tax returns prepared at a very low cost. The reduced rates will apply thru your first year as an associate veterinarian. We don't care if you spouse earns a six-figure salary, or you own 10,000 shares of IBM stock, we will prepare your return at a reduced rate.

We would like to offer you tax preparation services at the following reduced rates:

- \$100 - University of Pennsylvania Veterinary Student
- \$150 - Intern/Resident
- \$175 - First year Associate

After your first year as an associate, you become an "official" client of the firm, which allows you the privilege of being charged our regular hourly rates plus costs. ☺

We would also like to invite you to peruse the rest of our web site, a comprehensive resource center for veterinarians. Here you will find valuable information on such topics as: "*What to Expect as an Associate Veterinarian*", "*Practice Management*", "*Buying or Selling a Veterinary Practice*", and "*Starting Your Own Practice*".

All the best in completing your studies, and finding the practice of your choice.

Sincerely,

Gatto McFerson, CPAs
